**DETAILED OFFICE ACTION**

The instant application was filed on April 23, 2001 with claims 3-11.

In the preliminary amendment filed on April 23, 2001, claims 3-11 were canceled and claims 12-18 (not claims 12-20) were added. The pending claims of record are claims 1-2 and 12-18.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2 and 12-18 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Wenderoth et al (Wenderoth) WO 97/46,640 that has matured into U.S. Patent No. 6,071,993.

Wenderoth teaches and discloses a mixture of component (b) 10 to 90% by weight of a reaction product of a poly (C<sub>2</sub>-C<sub>20</sub> Carboxylic acid) having at least one tertiary amino group with secondary amines, note Example 2 for component (b) and formula V, VI and VII, and component (a) from 10 to 90% by weight of at least one imide of a copolymer based on alpha olefin an ethylenically unsaturated dicarboxylic acid and a polyamine, note Example 1 for component (a) and Formula III and IV that anticipate the mixture of claims 1-2 and 12-14.

Patentee further teaches that the components (b) and (a) are diluted with solvent of naphtha further anticipating the concentrate of instant claim 17. The mixture of components (b) and (a)

are used in a mineral oil distillate that further contains ethylene/vinyl propionate, note Tables 1 and 2 further anticipating claims 15-16 and 18.

The prior art cited but not applied further discloses middle distillates and additives in the middle distillates of the same nature as that of the instant claims.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Margaret B. Medley whose telephone number is 703-308-2518. The examiner can normally be reached on Monday-Friday from 7:30 am to 6:30pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Vasu Jagannathan can be reached on 703-306-2777. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-0661.
